

Comprehensive Marketing Report: Naqshar Architects & Consultants

Executive Summary

Naqshar Architects & Consultants, established in 2020, has swiftly carved an international presence across Pakistan, Saudi Arabia, and the UAE, delivering holistic and innovative design solutions. Operating in booming construction and design markets – projected to grow at CAGRs of 15.6% in Pakistan, 8.2-8.92% in Saudi Arabia, and 9.96-17.5% in the UAE – Naqshar is uniquely positioned for significant growth. The firm's entrepreneurial structure, comprehensive service offering, and explicit commitment to sustainability provide a competitive edge against larger, more established players.

This report outlines an aggressive 18-month marketing strategy aimed at achieving a **60% increase in overall revenue**, driven by focused market penetration, enhanced brand awareness, and optimized client acquisition. Key recommendations include leveraging digital marketing, content creation around sustainability and innovation, strategic industry partnerships, and active participation in regional events. By emphasizing its agile, client-centric approach and commitment to sustainable design, Naqshar can capture a larger share of the high-growth residential, commercial, and institutional sectors, particularly within the ambitious development landscapes of KSA (Vision 2030) and the UAE. Robust ROI tracking will ensure efficient resource allocation and measurable success.

Company Overview

Naqshar Architects & Consultants, founded in 2020, is an innovative design firm specializing in holistic architectural and design solutions. The company operates across diverse local and international contexts, with a noted operational footprint in Pakistan, Saudi Arabia, and the United Arab Emirates.

Mission: To provide the best service that exceeds client expectations by leveraging the team's combined capabilities centered on Passion, Creativity, and Design Innovation.

Vision: To create buildings and spaces that enhance cities and improve people's lives, focusing on quality, storytelling, and global expansion, making dreams come to life, one building at a time.

Leadership Team: * **Esther Bryce:** Founder / Interior Designer – Visionary leader steering brand direction and design excellence. * **Lianne Wilson:** Broker – Drives business development, strategic partnerships, and client acquisition. * **Jaden Smith:** Architect – Leads architectural innovation, sustainable design integration, and technical oversight. * **Jessica Kim:**

Photographer – Manages visual content, ensuring high-quality representation of projects and brand.

Core Competencies & Services: Naqshar offers a comprehensive suite of design services: *

Architecture Design & Consultancy: Encompassing residential, institutional, civic, and commercial projects, focusing on creative, dynamic, functional, unique, and sustainable buildings. *

Interior Design & Consultancy: Enhancing functionality and aesthetics for residential, institutional, civic, and commercial spaces, tailored to client vision and personality. *

Urban Design: Services aimed at improving the functionality and aesthetics of urban environments, contributing to better cities. *

Landscape Design: Creating appealing and functional outdoor spaces that blend with their surroundings. *

Industrial Design: Planning and designing industrial spaces to fulfill functional requirements. *

Amenity Design: Developing hospitable and welcoming environments within various project types.

Achievements & Market Position: Despite being a newer entrant (established 2020), Naqshar has rapidly expanded its international presence, working on real estate developments in Pakistan, Saudi Arabia, and the UAE, including planning large-scale multipurpose interventions. Their strategic advantage lies in an entrepreneurial corporate structure, delivering best-in-class services across a broad diversity of project types with competitive overhead costs. This agility allows Naqshar to respond quickly and effectively to changing market conditions and implement diverse developments.

Competitive Landscape Analysis

The architecture and design industry is highly competitive, particularly in the rapidly developing markets of Saudi Arabia and the UAE, and the growing market of Pakistan. Naqshar competes with both established local firms and large international consultancies. While specific revenue figures for all competitors are often proprietary, their market presence, project scale, and general industry reputation position them as significant players.

Industry Overview by Region: *

Pakistan: Architectural, engineering, and construction services market projected to grow at a CAGR of 15.6% (2024-2030). Key trends include sustainable, climate-resilient, biophilic, and heritage-inspired contemporary design. Interior design favors antique styles, handicrafts, art deco, geometric patterns, and natural elements. The market faces challenges related to infrastructure planning and environmental concerns but offers opportunities in green building practices. *

Saudi Arabia: The interior design market was valued at USD 20.12 billion in 2024, projected to reach USD 33.90 billion by 2030 (CAGR 8.92%). KSA dominates MENA architectural services (48% market share in 2024). The broader AEC market is expected to reach USD 205.9 billion by 2033 (CAGR 8.2%, 2025-2033). Vision 2030 drives massive growth, emphasizing innovative and sustainable mega-projects. Resource scarcity and supply chain pressures are notable challenges, alongside the need for specialized licensing from the Saudi Council of Engineers. *

United Arab Emirates (UAE): The

architectural, engineering, and construction services market revenue was USD 767.2 million in 2023, expected to reach USD 2,258.9 million by 2030 (CAGR 17.5%, 2024-2030). The interior design market is projected to grow from USD 1.77 billion in 2025 to USD 2.84 billion by 2030 (CAGR 9.96%). Substantial investments in infrastructure, tourism, and urban development fuel demand for innovative, sustainable, and resilient solutions. Challenges include rising costs, supply chain disruptions, and strict compliance with local building codes.
